

LOXX[®] is robust and versatile in use

Technical data

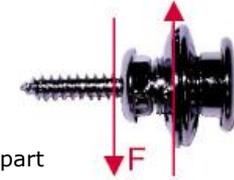

Shearing force upper and lower part > 1200N

Upper part: large cap

Lower part: sheet metal screw

Deformation start: 1233 N

Shot moment: 2579 N

Test:
Shearing upper and lower part

Vertical force upper and lower part > 1200N

Upper part: large cap

Lower part: sheet metal screw

Deformation start: 1261 N

Shot moment : 1895 N

Test:
Vertical power upper and lower part

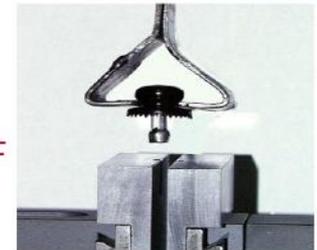

Vertical force Knob-Rivet > 300N

Upper part: smooth cap
with stainless steel spring

Test:
Knob-rivet upper part

The values are also valid for LOXX tops with different head shapes
